

HyperSDK Platform Suite

Machina - Client overview

Stakeholder deck

Product positioning

- Machina is part of the HyperSDK Platform suite - enterprise automation and APIs.
- Integrates with upstream exports, conversion, Kubernetes VM fleets, and observability layers.
- Typical checkout: `~/tt/machina` next to `hypersdk-web`.

Engage

- Enterprise licensing, SLAs, and roadmap alignment: hypersdk.cloud/contact
- Suite comparison and architecture context: hypersdk.cloud/docs/products
